Fall 2025

OAS introduces Tides, Fall 2025 collection.

Tides is about embracing the journey—to capture that perfect moment between autumn's last golden hours and the chill of winter. The beauty of slow travel, the allure of nature, and the desire to reconnect with the core of who we are.

Inspired by the untamed beauty of the Nordic archipelago, OAS Fall 2025 collection captures the harmony between ruggedness and minimalism, reflection and self-discovery through the changing seasons.

Tactile textures such as washed heavy knit, cord velour, and crochet offer artisanal warmth and character. The color palette reflects autumnal tones like driftwood, mineral greens,

weathered mossy stones, and the cool serenity of indigo skies.

Signature pieces include jacquard velour tracksuits, hand-knit crochet vests, and terry robes. It's all about the layers. Patterns inspired by nature evolve from geometric precision to organic fluidity, echoing the contrasts of strength and fragility. Every garment is crafted to balance functionality with artistry, creating a collection designed for introspection, adventure, and timeless refinement.

This collection is an invitation to wander thoughtfully, dress purposefully, and stay true to your inner traveler.
